Yate Swimming Pool – Temporary Changes

We wanted to get in touch to inform you of the essential maintenance and refurbishment that will take place at our Yate Swimming Pools starting in April 2017.

This means that we will need to close both pools for a period of time whilst the works take place. However, we are pleased to announce that a temporary swimming pool will be installed in the rear of the Kennedy Way Car Park. **This means public swimming and swimming lessons will continue during the closure period.**

Timescales: We will close both pools at the end of March 2017 and open the temporary pool on the 1st April to keep disruption to a minimum. Both pools will re-open in the Autumn.

We will be releasing a specific pool timetable for this period nearer the time. There will be some impact to changing facilities and the car park during this time. Regular updates will be displayed in the centre.

Remember, as part of your membership you can use pool facilities at any of our other centres located in Bradley Stoke, Longwell Green, Kingswood and Thornbury. Full address details are available on our website www.activecentres.org

If you have any questions about the temporary changes please get in touch with Fran Snell, Centre Manager via frances.snell@circadiantrust.org
